

A

fMRI
functional connectivity
resting state

DMN
BOLD

B

learning
movement
encoding
stress
monitoring
context
goal
action
manipulation
generation
planning
emotion
integration
risk
salience
communication
perception
arousal
filtering
strategy
language
attention
focus
knowledge
pain
reward
consciousness
efficiency
memory
association
cognition
awareness
concept
retrieval
mod
inhibition
utility
maintenance

C

methodology
meta-analysis and review
multimodal
epilepsy and seizures
aging
development
schizophrenia
trauma and behavior
clinical
depression
alzheimer's disease
basic neuroscience

D

hippocampus
cerebellum
PFC
PCC
amygdala
precuneus
insula
ACC
cingulate
thalamus
hippocampal gyrus
cuneus
hypothalamus
putamen
striatum
